Fetch vs Pull

Pull = fetch + merge

Fetch = fetch

Pull fetched from remote and gives a copy to local repo and also changes are reflected in IntelliJ/Eclipse merge happens

Fetch changes are available in local repo but does not display in IntelliJ/Eclipse

After fetch u want changes in IntelliJ then we can command git pull or git rebase

```
mohammedhaseebalikhan@271AMBBLR-Mohammed-Haseeb-
Ali-Khan JavaLearn % git pull origin master
```

```

```

```
* branch      master    -> FETCH_HEAD
```
